DEVFEST.CZ 2026 · IDENTITY GUIDELINES

BRAND MANUAL

Everything you need to keep the story straight.
Black, white and a trace of red.

01 – THE CASE

A CONFERENCE IN FILM NOIR

DevFest.cz 2026 is told like a detective story. Smoke, rain on the window, hard light from a desk lamp and a case that needs cracking. The identity borrows the language of 1940s crime films: black & white, deep shadows, typewriter notes — and red, used only where the evidence is.

01 BLACK & WHITE FIRST

Every layout starts monochrome. Contrast carries the mood.

02 RED IS EVIDENCE

Red marks what matters: a word, a date, a dot. Never decoration.

03 SHADOWS TELL

Hard light, grain, vignettes. Let the dark do the work.

04 THE TYPEWRITER VOICE

Short, punchy headlines. The lore reads like a case note.

02 – LOGO

THE LOGO

Preferred: the red-dot versions. The red dot in “DevFest.cz” is the single spot of colour in the logo – the first clue. Use it whenever the medium allows colour and the background leaves the dot clearly visible.

Mono versions are for single-colour output (engraving, embroidery, one-colour print, stamps), for red or red-toned backgrounds where the dot would disappear, and wherever a partner requires a one-colour lock-up.

Source files: df26_logo_[dark|white](and_red_dot).svg / .ai / .png. Always use the originals – never redraw or retype.

02 – LOGO

PICKING THE VERSION

✓ White / light – dark logo, red dot.

✓ Black / dark – white logo, red dot.

✓ Dark photo – white logo on a calm, darkened area.

✓ Red – white mono logo only. The dot would vanish.

✓ Red-toned – white mono logo preferred.

✓ Light grey / paper photo – dark logo, red dot.

02 — LOGO

CLEAR SPACE

RULE

H = full height of the logo including the 2026 badge. W = full width.

Top & bottom: 50 % of H.

Left & right: 3 % of W.

No text, image edge or other logo may enter this zone. It is a minimum — give it more air whenever you can.

IN THE FILES

The supplied SVG artboard (3000 × 600) already contains the clear space. Place the file edge-to-edge against other elements and the zone is kept automatically.

MINIMUM SIZE

Below this width the 2026 badge becomes unreadable.

PRINT — 40 MM

DIGITAL — 180 PX

SYMBOL ONLY — 8 MM / 24 PX

Where there is less room, don't shrink the logo — change the layout, or ask for an approved symbol use.

02 – LOGO

THE SYMBOL

The two brackets can work on their own — but only as an alias, never as a replacement. Standalone use is restricted to **approved cases**.

APPROVED CASES

- Social media avatars & profile images
- Favicon, app icon
- Sign-off mark on posts where the full logo already appears in the series or context
- Merchandise details (sleeve, back, lanyard clip), stickers, pins
- Venue wayfinding, where the full logo is present nearby

Any other standalone use must be approved by the DevFest.cz organising team. Clear space around the symbol: 25 % of its height on all sides. Minimum size 8 mm / 24 px.

02 – LOGO

TAMPERING WITH EVIDENCE

× Don't stretch or squash.

× Don't rotate or tilt.

× Don't recolour – not even in brand red.

× Don't add shadows, glows or outlines.

× Don't retype the wordmark in another font.

× Don't remove, move or resize the 2026 badge.

× Don't use the red-dot logo on red.

× Don't place it on busy or low-contrast areas.

03 — COLOUR

THREE COLOURS. NO MORE.

NOIR BLACK

HEX #000000
RGB 0 · 0 · 0
CMYK 0 · 0 · 0 · 100 (text)
60 · 40 · 40 · 100 (large areas)

PAPER WHITE

HEX #FFFFFF
RGB 255 · 255 · 255
CMYK 0 · 0 · 0 · 0

EVIDENCE RED

HEX #F11000
RGB 241 · 16 · 0
CMYK 0 · 95 · 100 · 0
PMS ≈ 485 C *

PROPORTION

Greys are not brand colours. They appear only as **opacity of white or black** (e.g. 60 % white for secondary text on black) or naturally in photography.

* Nearest Pantone match — always confirm against a printed proof.

03 — COLOUR

RED IS EVIDENCE

Red is a clue, not a mood. By default it lives in small details. Larger red areas are allowed only in the approved cases below — where a series needs variety.

DEFAULT — DETAILS

- The dot in the logo
- 1-2 highlighted words in a headline
- The year in the date
- CTA words
- Stamps, underlines, markers

APPROVED — LARGE AREAS

- Title bars behind a headline
- Red-toned backgrounds (red darkened by a black gradient) on content & closing slides
- Primary CTA buttons

NEVER

Red running text or lore · red on red · red with any other accent colour · gradients from red into other hues · a fully red logo.

05 — GRAPHIC ELEMENTS

THE DETECTIVE'S KIT

HEADER STRIP

CTA · logo · date. Top of every social post in a series.

TITLE BAR

Red block behind a talk title or key message. One per layout.

DATE BLOCK

Black block for the date or a single fact on red-toned slides.

TORN PAPER

Newspaper headline ripped over a noir image. Bebas, black on paper, ruled lines.

TYPEWRITER MARKERS

Special Elite, centred at the bottom. SWIPE on each slide, END on the last.

GRAIN, LIGHT & STAMPS

Film grain, a single light source, red rubber stamps for status.

06 – IMAGERY

SHOT IN THE DARK

Scenes look like stills from a 1940s crime film: black & white, one hard light source, deep shadows, rain on glass, smoke.

DO

- Monochrome, high contrast, grain
- Venetian blinds, desk lamps, neon, wet streets
- Props: fedora, trench coat, magnifier, typewriter, rotary phone, case files, tickets as evidence
- Hide tech details in the scene (laptop, code, neon logo)
- Speaker portraits cut out on a black backdrop – colour is allowed here

DON'T

- Bright, saturated or pastel stock imagery
- Flat vector illustrations, emoji, clip-art
- Accent colours other than red
- Distorted or unofficial logos inside AI-generated scenes – replace them with the real logo

07 — APPLICATIONS

INSTAGRAM CAROUSEL

**01 • HOOK**

Speakers on black, talk title in a red title bar, names in Bebas.

**02 • LORE**

 Backgrounds flow from one slide into the next

07 — APPLICATIONS

SINGLE POSTS & PARTNERS

CAMPAIGN POST

A full noir scene carries the story. Torn-paper headline on top, Bebas message at the bottom with a red twist (“is almost closed”). When the full logo is already in the scene, the symbol may sign off in the corner.

PARTNER POST

The partner’s logo stays in its **original colours** — the only exception to the three-colour rule — placed on a paper card or file inside a black & white scene. Partner tier in Special Elite. DevFest.cz logo in white, bottom centre.

FORMATS

1080 × 1350 feed • 1080 × 1440 (3:4) • 1080 × 1920 stories — keep 250 px safe zones top & bottom.

CAMPAIGN • 1080 × 1440

PARTNER • 1080 × 1350

CASE IS OPEN.
